Veneer:
F019 american walnut.

Top surfaces. For the production of tables and panels for the bodies of clad furniture such as cupboards and sideboards, three-layer quality fine chipboard E1 (DIN EN 312) is used. The panels are laminated with real wood veneers which after cutting to size and sanding are given several coats of clear varnish or stained and varnished. Only water-based varnishes are used.

Important note. Material and color charts produced by printing can deviate slightly from the original and the colors are not necessarily exactly true. The same applies to ink-jet or laser prints from PDF files.
