**Wood stain color:
H015-011 oak black.**

Solid wood parts. Solid wood parts are mainly used in the production of chairs and tables and at VS also made from oak wood. After cutting to size and sanding, the oak parts are either given several coats of clear varnish, stained and varnished or painted. Only water-based wood stains and paints are used.

Important note. Material and color charts produced by printing can deviate slightly from the original and the colors are not necessarily exactly true. The same applies to ink-jet or laser prints from PDF files.
