**Metal color:
M009 brilliant silver.**

Metal parts. Steel and aluminium are mainly used in the manufacture of chairs and tables but also for racks. At VS, tubes as well as metal sheets for fronts are generally epoxy-resin powder-coated. In addition to various metal colors, selected products can also be chrome-plated.

Important note. Material and color charts produced by printing can deviate slightly from the original and the colors are not necessarily exactly true. The same applies to ink-jet or laser prints from PDF files.
