

**MATERIAL** Mat-M100\_ME\_US - 14.12.2016 - [www.vs-furniture.com](http://www.vs-furniture.com)

**Metal color:  
M100 alu anodised.**

**Metal parts.** Steel and aluminium are mainly used in the manufacture of chairs and tables but also for racks. At VS, tubes as well as metal sheets for fronts are generally epoxy-resin powder-coated. In addition to various metal colors, selected products can also be chrome-plated.

**Important note.** Material and color charts produced by printing can deviate slightly from the original and the colors are not necessarily exactly true. The same applies to ink-jet or laser prints from PDF files.
